React Data Grid

AG Grid React

hawkins-table-next

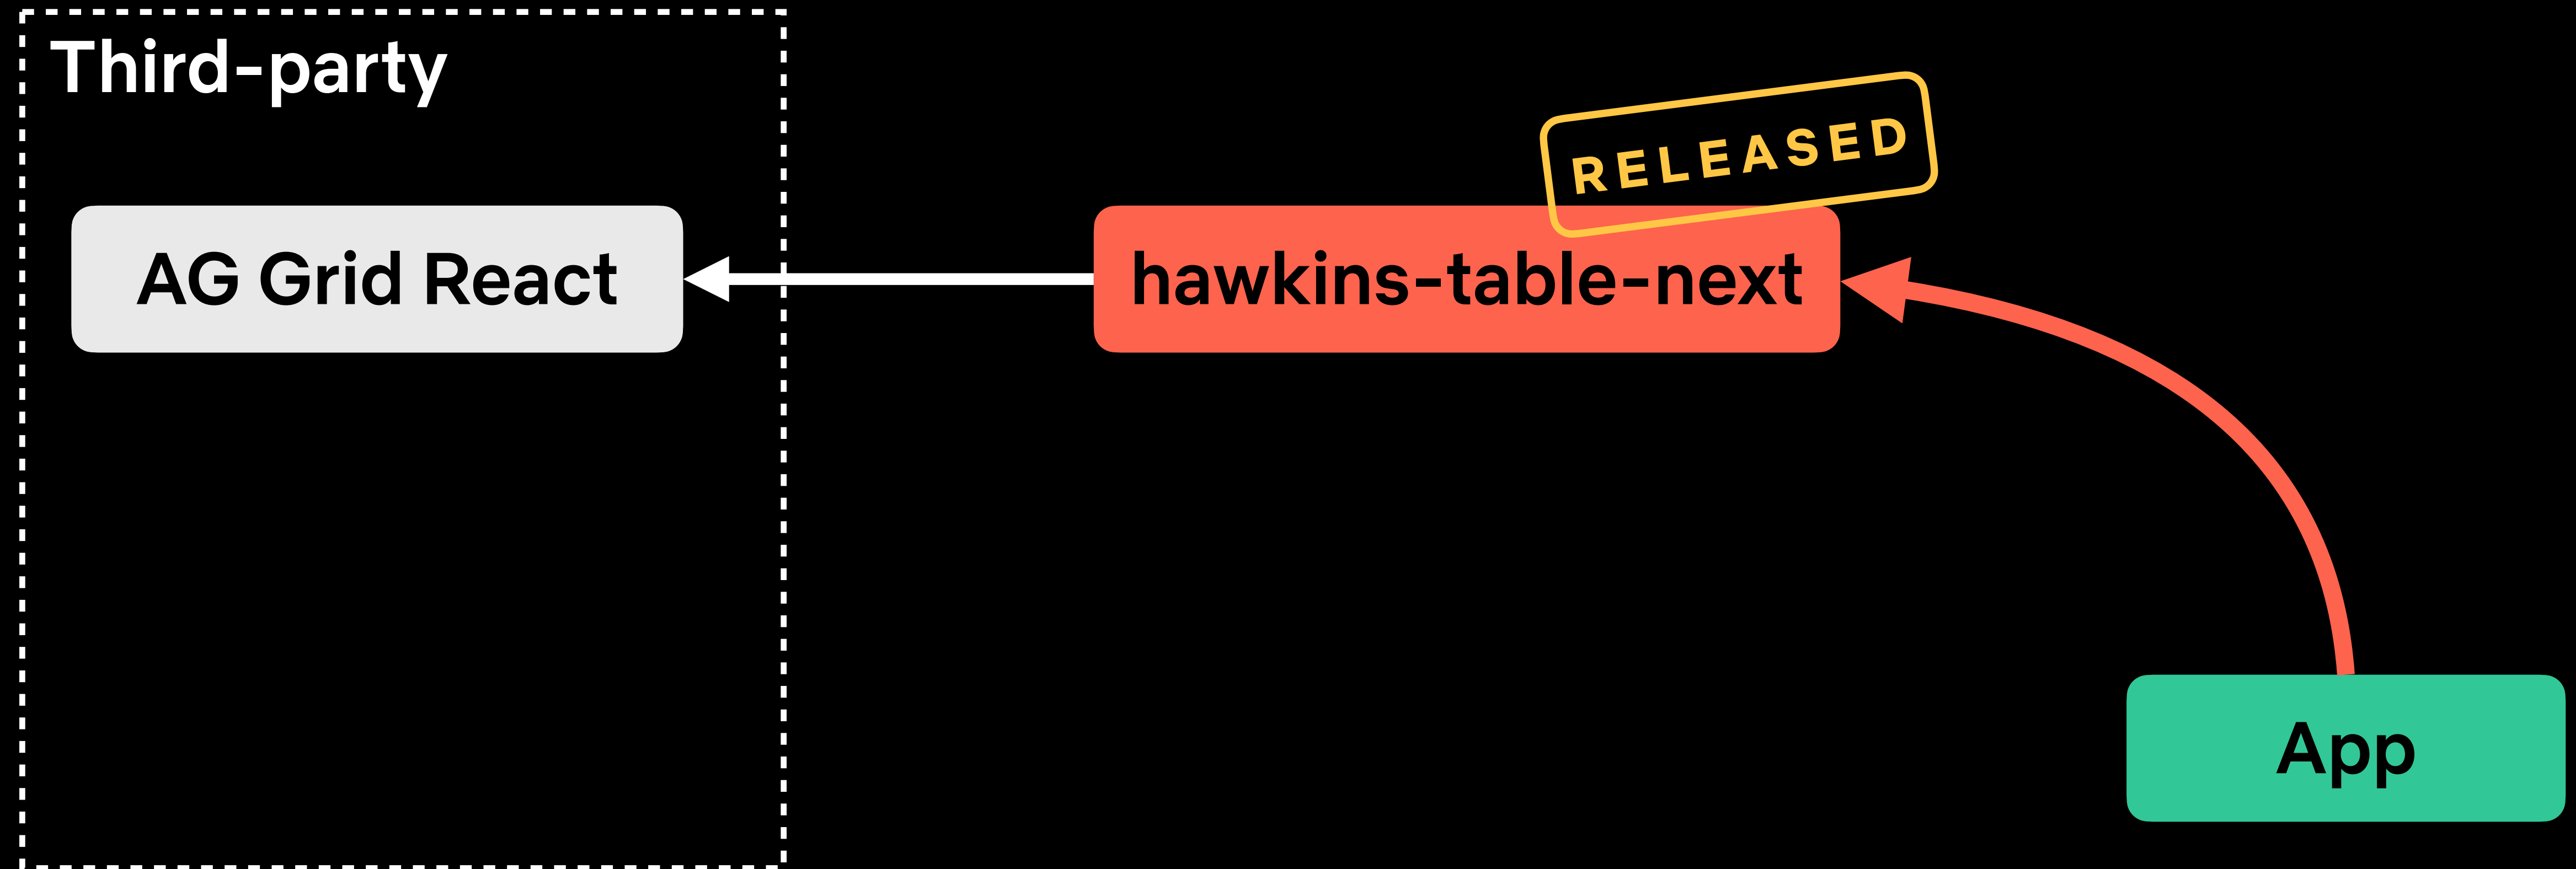

AG Grid React

hawkins-table-next

migrate remaining tables

RELEASED

1. Build on **AG Grid React** library directly
2. Swap to **hawkins-table-next** once released
3. Gradually **migrate remaining tables**

PROS & CONS

- no delay in product work
- less tech debt to address later
- early API feedback
- easy to finalize
- direct platform support
