APPROACH 2

PHASED MIGRATION

Three phases: preparation, migration, follow-ups.
*Pin dependencies per app, **migrate one app at a time.***

App 1 - pioneer

App 2

App 3

App 4

App 5 - failed

APPROACH 2

PHASED MIGRATION

- flexibility
 - white-glove platform support
 - easier to review and verify
 - pionner app to follow
 - predict effort
 - incremental preparation
 - easier to find / address blockers
- apps lag behind
 - temporary monorepo mess
