

Use this approach when:

- **The integrations may change over time**
- **You don't know what the platform will expose yet**
- **The feature has business logic worth isolating**

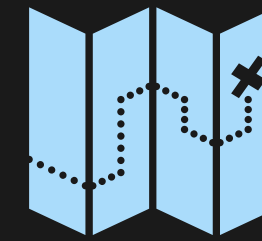

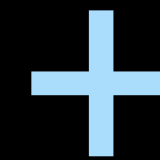

AGENT SKILL

RULES

ports-and-adapters/SKILL.md

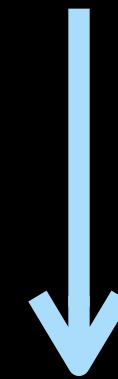

- Boundary rules
- Naming conventions
- Testing workflow
- Common mistakes

EXAMPLE

A complete reference feature

- Core + Display
- Port contracts
- Adapters
- Wiring + tests

Build new features

Review existing ones
